SUMMARY

Detail-oriented Computer Science graduate with strong programming fundamentals and hands-on experience in building web applications. Proficient in Python, Java, JavaScript, and SQL, with a focus on developing practical, scalable solutions. Eager to contribute to real-world projects while continuously improving technical skills

EXPERIENCE

Oasis Infobyte (OIBSIP)

Web Development & Designing Intern | Nov 2025 – Dec 2025

- Designed and developed responsive web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and improved user experience for internal applications.
- Enhanced code quality and maintainability by applying structured coding practices, debugging issues efficiently, and gaining exposure to real-world development workflows and deadlines.

Prodigy InfoTech

Web Development Intern | Aug 2025

- Built interactive and responsive web pages using HTML, CSS, and JavaScript, focusing on clean UI design and user-friendly layouts.
- Strengthened problem-solving and front-end development skills by working on practical tasks, optimising page performance, and debugging real-time issues.

PROJECTS & LEADERSHIP

Balancing Coaching Culture and Parenting Pressures

[View Paper](#)

- Conducted a study on the impact of coaching and parental pressure on students preparing for competitive exams.
- Analysed factors affecting student stress, performance, and decision-making, and presented key findings.

Meri Panchayat – Public Issue Reporting Portal

[View Project](#)

- Engineered a scalable Flask + SQLite backend with secure Email OTP and RBAC, reliably handling 100+ concurrent citizen requests.
- Built a custom i18n engine for Kannada, expanding access for non-English-speaking users and improving digital inclusion.
- Designed a responsive citizen portal with image uploads and live issue tracking, boosting transparency and user experience.
- Created an analytics dashboard for Panchayat officials with real-time issue metrics, enabling faster, data-driven decision-making.

Smart Recipe Generator

[View Project](#)

- Developed a responsive recipe recommendation web application using HTML, CSS, and JavaScript, applying modular design patterns for maintainable code and optimising dynamic UI updates for fast client-side rendering.

Tetris Game (Python)

[View Project](#)

- Developed a classic game using Python with implemented game logic and scoring system.
- Handled collision detection and real-time gameplay interactions.

Book Store Billing System (Java)

[View Project](#)

- Created a Java Swing application for automated billing and transaction handling.
- Implemented discount calculation and a user-friendly graphical interface.

EDUCATION

St. Agnes College (Autonomous)

Present

Master of Computer Applications (MCA)

University College Mangaluru

2024

Bachelor of Science (BSc) in Computer Science & Mathematics

SKILLS & ADDITIONAL INFORMATION

Technical Skills: Full Stack Development, Python, Java, HTML, CSS, JavaScript, SQL, Canva, MS Office Suite, VS Code, PyCharm

Certifications: Participated in a three-day Hands-on Workshop on Internet of Things, ExcelR 30-Hour Certification Programs, Internet of Things (IoT) Training, Website Development – Infosys Springboard, Digital Productivity – NIIT Foundation
